Sexual Misconduct and Responsible Employees (Faculty and Staff)

Under the College’s Policy Against Sexual Misconduct, Responsible Employees are defined as faculty, coaches, administrators, Resident Assistants/Residence Hall Coordinators, employees within the Public Safety department and other student employees/volunteers with a significant responsibility for student welfare.

Except for individuals who have legally protected confidentiality, all responsible employees of the College are required to share with the Title IX Coordinator any report of sexual harassment, sexual violence, stalking, or intimate partner violence they receive or of which they become aware.

When talking with someone who experienced sexual misconduct...

- Listen
- Don’t be judgmental
- Let the person make their own decisions
- Respect privacy to the extent possible
- Encourage the person to get help
- Be present

Tips for responsible employees

- It’s okay to acknowledge that the responsibility to share information can be difficult
- Even after a report is filed, the complainant always has the choice of whether to participate in the process, respond to Title IX outreach, or share additional information
- You may call the Title IX Coordinator/Public Safety while the complainant is in the room with you
- Remember to pass along any information that may be of concern. The information you share will be handled with respect and may help to create a safer space for us all
- When in doubt, report!
