“I feel that through my St. Mary’s Project, I will reach a deeper understanding of the Chesapeake Bay environment and be better able to preserve and protect this delicately balanced ecosystem. Someday, I hope to direct my own research on shifting coastal ecosystems – vital life sources – and the implications this may have for organisms that live in, and processes that occur within, these ecosystems.”

**OLIVIA CARETTI '14 (above)
Cove Point Natural Heritage Trust’s
Ruth Mathes Scholarship recipient**

“Having spent over 30 years at St. Mary’s College I continue to be impressed by our quality: academics, students, and faculty. This is why I give – to champion our mission, liberal arts education, and creative and caring community of scholars. There are so many reasons to support St. Mary’s. Thank you for supporting your passion!”

**DON STABLE
professor of economics**

THE 1840 SOCIETY

In 1840, the Maryland legislature authorized a state-wide lottery to finance the construction of a public, non-denominational boarding seminary in St. Mary's City. In 1992, St. Mary's College of Maryland, a residential liberal arts institution, was named the state's public honors college. While our status as a public trust and our promise of public education – affordable to all and thriving on diversity and high standards of academic excellence – stem from distinctive legislative origins, it is philanthropy that sustains our commitment to a legacy of affordability and educational rigor.

The 1840 Society recognizes leaders whose annual financial support not only transforms opportunities for students and faculty, but also plays a significant part in St. Mary's growth, success, and unique place in higher education.

Within the 1840 Society, there are five levels of giving.

Monument Circle \$25,000+

As Maryland's "living monument" to the historical significance of the colonial capital – St. Mary's City – the school exemplifies an ethos of toleration. The "Freedom of Conscience" statue not only symbolizes St. Mary's founding and guiding principles, but also the luminaries who support the school's mission. Donors at this level have created, for example, four-year scholarships, lighting the way for students with financial need – the institution's highest funding priority.

Horseshoe Bend Circle \$10,000-\$24,999

The St. Mary's River has been integral to campus since the days when students traveled by steamboat. As the campus physically envelops the river, the water enriches the lives of all who study and teach here. Donors at this level have enhanced the distinctive living and learning environment that makes St. Mary's unique.

Pine Tree Hill Circle \$5,000-\$9,999

The vista from above St. John's Pond provides vantage points to the past – the first archaeological dig on the college campus was carried out here in 1967 – and to the horizon. Donors at this level have ensured new opportunities, including the resources for students to carry out St. Mary's Projects. The outcomes of these research projects or creative expressions in the arts transcend the college's boundaries and have implications in their respective fields.

Willow Oak Circle \$2,500-\$4,999

The magnificent tree growing in the Garden of Remembrance symbolizes nurture and knowledge. Donors at this level have provided, for instance, assistance grants and hope to students who are financially struggling to complete their St. Mary's degrees.

Bell Tower Circle \$1,000-\$2,499

Dedicated in 1980, the memorial carillon stands as a tribute to St. Mary's devoted leaders and supporters. Donors at this level have strengthened programs, including academic, student life, and athletic programs, that are essential to a residential campus.

Historical references taken from "St. Mary's: A 'When Did?' Timeline" (2007) by Janet B. Haugaard with Susan G. Wilkinson and Julia A. King.

"We know that at the center of our honors college are motivated students and faculty members who are dedicated to teaching, learning, and the liberal arts. We know also that a rigorous curriculum requires innovation and collaboration. We are so fortunate to have individuals who help ensure that we have the resources for students and faculty to go about the work that our honors college requires."

“My hope is to use my knowledge gained in the classroom and field to help heal the earth. If children learn and play outside, and are allowed to explore natural areas and let their imaginations run free, they will grow into a generation of adults who care deeply about the state of our planet. I dream of one day being instrumental in the cultivation of such a generation of people. I dream of making a difference.”
