

Resolution 03-07F

Sponsor: Joanna Gibson, WC Senator

Whereas: Global warming and climate change are a serious threat to people and natural systems across the planet;

Whereas: St Mary's College of Maryland has already demonstrated its role as a leader in the environmental movement;

Whereas: To focus the nation's attention on this crucial issue, St Mary's College of Maryland, in conjunction with colleges, universities, and high schools across the country, will organize a symposium about "Global Warming Solutions for America" on January 31, 2008. On that day, faculty members are strongly encouraged to travel with their classes to attend scheduled programs about climate change or to discuss it with their own students. The symposium program committee will work with interested faculty to develop appropriate material for their classes, and to insure that diverse disciplines are represented in symposium panels and workshops;

Be it hereby resolved: The St Mary's Student Government Association endorses the Focus the Nation event and will be listed on the Focus the Nation website with other Student Government Associations from campuses across the country that have also voiced their support for this event.

Keith R. Buzby
SGA President
