

Environmental Studies Major Checklist (with second major or minor in another discipline)

Beyond General College requirements, THE ENST MAJOR WITH A SECOND MAJOR OR MINOR requires a total of 10 courses and a minimum of 38 credit hours.** At least half of the credits applied towards your major must be completed at the College. In this case, a student must complete 10 courses and a minimum of 38 credit hours. The second minor or major satisfies the Depth requirement. You must still complete elective Breadth courses and must earn a grade of C- or better in all courses with a cumulative grade point average of at least 2.00.

**Students who complete only the ENST major use GREEN MAJOR CHECKLIST.

COMMON COURSES

Major requires five common courses. You may take them in any sequence, but ENST 100 or ENST 280 should be completed by the end of the second year.

Both Environmental Application and the Keystone Seminar should be completed by the end of the third year.

ELECTIVES

Major requires two kinds of electives: Depth and Breadth courses within identified Tracks (See Track List on reverse).

DEPTH REQUIREMENT *

A second major or minor satisfies the ENST depth requirement. Be sure to check a box above that matches the ENST track in which your major or minor is listed.

See ENST Track Alignment List on reverse.

BREADTH REQUIREMENT

Choose two ENST cross-listed courses, one course from each of the ENST tracks not used to fulfill the depth requirement. If 2nd major/minor is CDSA, select track in which majority of courses lie and satisfy breadth with courses from other two ENST tracks. You can use a maximum of 4 credit hours of independent study to fulfill the breadth requirement in addition to any independent study used to fulfill the Environmental Application Common Course requirement.
