

GrantForward UseCase: For Researchers

Receive Grant Recommendations

If you are too busy to search for grants regularly but still want to be updated about new potential opportunities, GrantForward will recommend relevant funding opportunities based on your research interests automatically. You can configure and update your Researcher Profile to reflect your interest better and therefore receive more matching grant recommendations.

Find more GrantForward support materials, including those referenced here, as well as Guides, Administrator Tools, Tutorials, UseCases, and Webinars at GrantForward.com/support.

1. What Are Grant Recommendations?

To keep your grant awareness, GrantForward sends personalized grant recommendations based on the research interests automatically, without any effort on your end. You can totally control or tailor your recommendations by specifying more research interest keywords or adding more filters.

You can receive the recommendations via:

- **Recommendation emails:** include new matching opportunities with highlighted keywords that allow you to quickly understand why those grants are recommended and decide if you want to explore them further.

Grant Recommendations from GrantForward

Dear Lynn Nguyen,

Thanks for using GrantForward. We are recommending you the grants we thought are relevant to your research interests. You can view all the recommended grants to you on GrantForward at [your recommendation page](#). We recommend grants based on the information in [your researcher profile](#). You can always [improve your profile](#) to reflect your research interests better, and therefore receive more related recommended grants.

1. New Recommendations
5 new grants that match your interests were added during this period. We recommend the following grants to you:

BJA FY 23 National Sexual Assault Kit Initiative - Purpose Area 1: Comprehensive Approach to Unsubmitted Sexual Assault Kits

2. How to Receive Grant Recommendations?

In order to receive grant recommendations, you need to build a precise researcher profile and keep it up to date to receive the most relevant funding opportunities.

- To create your researcher profile, go to the **Create Profiles** page under the **Researchers** tab, and fill in accurate information on the **Basic Information**, **Research Interests**, and **Extra Info & Profile Options** tabs.
 - At the **Research Interests** tab, use a comprehensive source that compiles and displays your complete publications, from which GrantForward can extract your research interest keywords. GrantForward allows various ways to specify your Interest Source. You can use a web page, e.g., your personal homepage or faculty directory page that contains your publications, or public profile pages such as Google Scholar, PubMed, ORCID, etc. You can also upload your CV or simply copy and paste publication citation text.

If you often update your own publication page and want GrantForward Profile to be updated as well, you can select how frequent we should automatically check and update your profile.

Update Frequency Every 6 Months

Update GrantForward Profile with my newly updated publication page now!

GrantForward will attempt to read the publication website to extract information about the profile owner's publications and research interests.

** Tip: It is recommended that you use websites from our supported list for better result.*

- Under **Specify Extra Keywords**, you can also add more specific keywords and move the scrollbar to indicate their importance.

Specify Extra Keywords

The keywords specified here will certainly appear in your profile.

Other Interests Low High

This is useful in cases some of the research interests haven't been identified by GrantForward, or no other sources of publications are available.

- At the **Extra Info & Profile Options** tab, choose the frequency to receive recommendation emails. Click on **Finish** to create your profile.

Notice of Special Interest (NOSI): Innovative Technologies for Research on Climate Change and Human Health (R43/R44 Small Business Innovation Research (R43/R44 Clinical Trial Optional)

After creating your researcher profile, you can also tailor your recommendation further by updating keywords and adding filters.

- Updating keywords:** Visit the **Edit My Profile** page under the **Researchers** tab. Click on the **Researcher Interests** to change your Interest Source or add/ remove specific keywords.
 - If you use a publication webpage as your Interest Source, you can set a frequency (e.g. every 6 months) for GrantForward to monitor and keep your profile in sync with your publications.
 - A good researcher profile will contain multiple research keywords for a rich "big cloud" of your research interests. GrantForward will automatically extract keywords and phrases from your publications, but there may be some keywords that do not accurately represent your current research interests -- so, make sure to edit/update your research keywords for precise capture of your research interests.

To remove a keyword/phrase, just uncheck it from the list.

Refine Data from Current Source

You can edit the interest keywords or your publication information^{new!} based on your current source directly.

Uncheck any improper or irrelevant keywords below to make them disappear after finishing editing your profile.

<input checked="" type="checkbox"/> Biology	<input checked="" type="checkbox"/> Marketing	<input checked="" type="checkbox"/> Large Language Models
<input checked="" type="checkbox"/> Human Resource	<input type="checkbox"/> Online Social Media	<input type="checkbox"/> Deep Reinforcement Learning
