

## Find Grants

If you are working on a research project and want to be aware of pertinent funding opportunities, you can use GrantForward's extensive database to search for the most relevant grants using keywords/phrases and various advanced filters. You can create a grant list to keep track of favorite grants and set up saved searches to receive email alerts whenever there are new grants matching your criteria. For example, in case you are looking for "Biology" grants, you can follow the steps below.

Find more GrantForward support materials, including those referenced here, as well as Guides, Administrator Tools, Tutorials, UseCases, and Webinars at [GrantForward.com/support](https://grantforward.com/support).

### 1. Find Grants With Keywords/Phrases and Additional Filters

To find the most matching funding opportunities from thousands of grants on GrantForward, you can specify keywords/phrases that are relevant to your research topics. You can optimize the search results by taking advantage of advanced keyword searches and an additional set of filters.

- Go to the [Search Grants Opportunities](#) page under the **Grants** tab.
- Indicate keywords/phrases related to your fields. Press **Enter** or click on the **Search** button to execute the search. You can use space or commas to separate terms, and double quote marks to search for the whole phrase.

The screenshot shows the search interface with the following elements:

- Input field: "All of the Keywords/Phrases" containing "biology".
- Buttons: "Search" and "Reset To Default".
- Advanced Search: "+ Advanced Keyword Search" button.
- Filters: "Go to" dropdown menu.
- Results: "Found 1103 results in 9.99 seconds.".
- Sort: "Sort by" dropdown menu set to "Relevance".
- Actions: "Export", "Save/Load", and "Url" buttons.

- Searching more related grants by clicking on the **Advanced Keyword Search**, and entering input in **All, Any, or None of the Keywords/Phrases**.

The screenshot shows the advanced search interface with the following elements:

- Input fields for "All of the Keywords/Phrases" (E.g. information "data science" "data integration"), "Any of the Keywords/Phrases" (chemistry, science "chemical materials"), and "None of the Keywords/Phrases" (business).
- Buttons: "Search" and "Reset To Default".
- Advanced Search: "- Advanced Keyword Search" button.
- Filters: "Go to" dropdown menu.
- Results: "Found 13205 results in 4.42 seconds.".
- Sort: "Sort by" dropdown menu set to "Relevance".
- Actions: "Export", "Save/Load", and "Url" buttons.

- All the filters are listed on the left panel (**Sponsors, Deadline, Amount, Sponsor Types, Grant Types, etc.**) to help narrow down your search results. You may refer to the document [What Advanced Search Filters Can I Use for Searching Grants?](#) on how to use advanced search filters.
- All the results are displayed with key information (**Title, Sponsor, Deadline, Description excerpt, etc.**) and highlighted matching keywords. You can sort the results by relevance, deadline, or other properties.

The screenshot shows the search results page with the following elements:

- Filters: "Go to" dropdown menu, "Sponsors", "Categories", "Deadline", "Status" (Open, Continuous, Closed), "Amount", "Sponsor Types" (Federal, State, Foundation, Corporate, Academic).
- Results: "Found 1105 results in 1.47 seconds.".
- Sort: "Sort by" dropdown menu set to "Relevance".
- Actions: "Export", "Save/Load", and "Url" buttons.
- Advanced Search: "Administrator" button.
- Filters: "Has keywords: +biology chemistry science 'chemical materials' -bu...", "With current status: Continuous, Open", "Of sponsor types: Federal", "Not of sponsor types: State", "With applicant locations: United States, including unspecified grants", "With activity locations: United States, including unspecified grants", "With applicant types: Individual, Organization, including unspecified...", "Not with applicant types: Undergraduate, including unspecified gra..."
- Navigation: "« Previous", "Layout" (Grid, List), "Next »".
- Grant Listing: "14 September 2023", "Agriculture and Food Research Initiative - Foundational and Applied Science Program - Plant health and production and plant products - Foundational Knowledge of Agricultural Production Systems - Seed Grants", "National Institute of Food and Agriculture", "U.S. Department of Agriculture", "These include investigations of plant and pest biology at the molecular, cellular, whole-organism, and systems levels to increase performance and provide protection from biotic and abiotic stressors increasingly exacerbated by climate change. New traits are being ... to be a leader in the agricultural sciences and a reliable source for the..."
- Table: "Amount", "Deadlines", "Eligibility", "Submission Info", "To \$300,000".

### 2. Save a Search and Receive Email Alerts

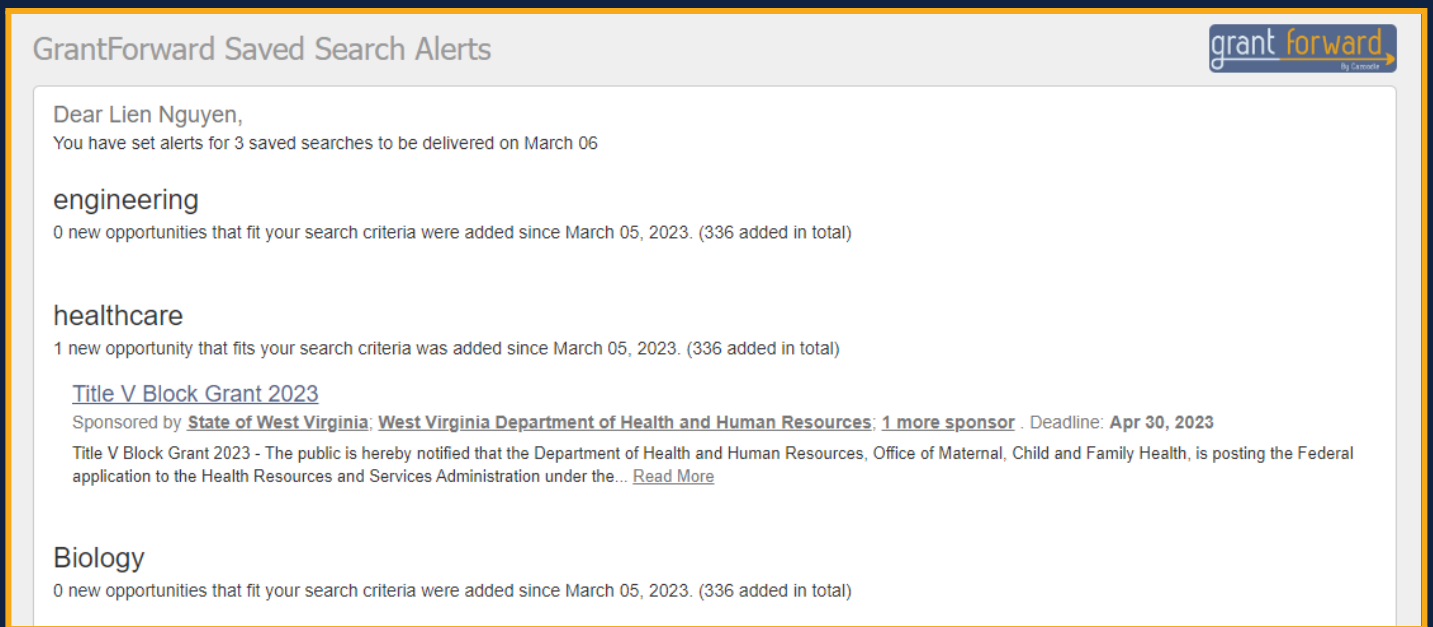

After setting up a grant search with relevant keywords/phrases and filters, instead of recreating the same search every time you want to see new grant opportunities matching the selected search criteria, you can set up a saved search and receive email alerts of new grants periodically.

- Save your search:** Click on the **Save/Load** button at the top of the search results and choose **Save a Search**. Name your search and select the alert frequency to get daily, weekly, or monthly email alerts of new grants matching your search conditions.

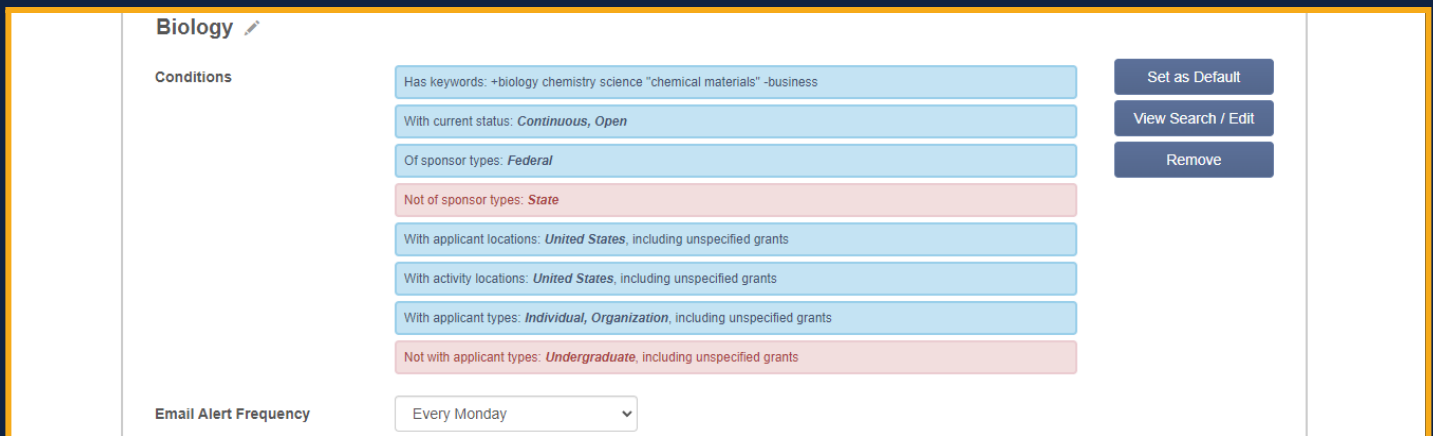

The screenshot shows the "Save/Load" dialog box with the following elements:

- Alert frequency: "Every Monday" dropdown menu.
- Choose the frequency that you want to receive alerts for this search.
- In case of no new grants:  Send anyway,  Don't send email.
- Buttons: "Save", "Close".
- Background: "Save/Load" button highlighted in red.

- **Receive alerts in your email inbox:** You will receive an email alert summarizing new grants matching your saved searches on the scheduled date as your alert frequency setting.

- **Keep your saved searches up to date:** You can revisit and update your saved searches on the [Saved Searches](#) page under the **Grants** tab to ensure that you are receiving the most relevant opportunities.

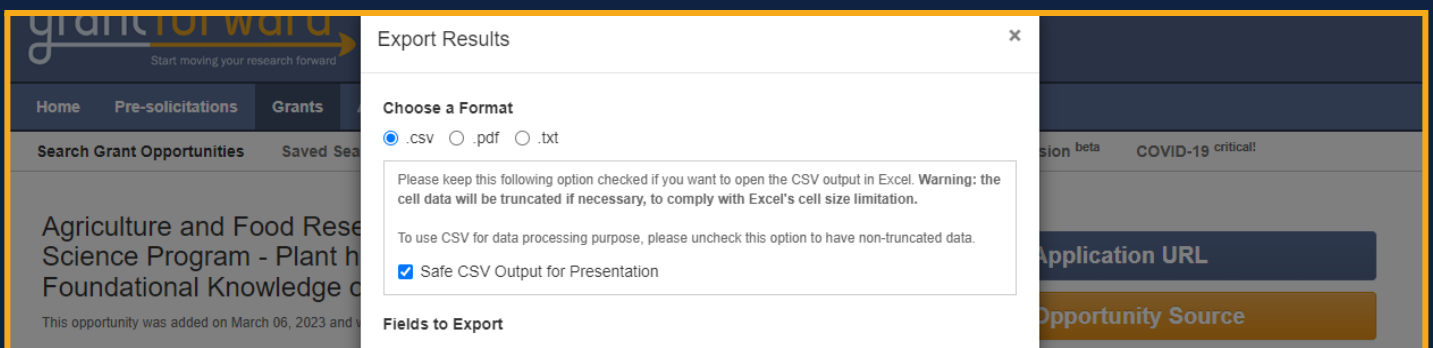

## 2. Manage and Keep Track of Desired Grants

You can click on the grant title to see more detailed information and links to the opportunity and application pages. To manage grants effectively, you can export any funding opportunity, share them with colleagues, or build grant lists.

- **Export:** You can download an individual grant by clicking on the **Export** button below the grant title.

In the pop-up dialog box, you can choose the file format and the fields to export.

- **Favorite:** There are two ways allowing you to mark a grant as your favorite to view it later quickly. You will receive notifications when your favorite grants have been updated.

- On the search results page, click on the Star button.

- On the grant detail page, click on the **Favorite** button to mark it as your favorite.

- **Add to List:** There are two ways to curate a list of a specific topic.

- On the search results page, click on the tag icon of each desired grant to add it to a list.

- On the grant detail page, click on the **Add to List** button.

Agriculture and Food Research Initiative - Foundational and Applied Science Program - Plant health and production and plant products - Foundational Knowledge of Plant Products - Conference Grants

This opportunity was added on March 06, 2023 and was last checked on March 06, 2023.

- In the dialog box, enter the recipients' email addresses and customize the content as you wish.

Share this grant

You are about to share the grant Agriculture and Food Research Initiative - Foundational and Applied Science Program - Plant health and production and plant products - Foundational Knowledge of Plant Products - Conference Grants to the following email addresses:

kevin.chang@ lien.nguyen@

You can customize your content to be sent to the recipients as below:

Simple Customized <sup>new!</sup>

You can attach additional message here:

Check it out!

- On the **Shared** page, you can review all the opportunities you have shared with your colleagues, fellow researchers, etc. The opportunity-sharing email includes the grant title, the URL link that is valid for fourteen days, and your message.

GrantForward Opportunity Sharing

Lynn Nguyen has shared the opportunity **Agriculture and Food Research Initiative - Foundational and Applied Science Program - Plant health and production and plant products - Foundational Knowledge of Agricultural Production Systems - Conference Grants** on GrantForward to you. You can view the shared opportunity by visiting the following URL:

[https://www.grantforward.com/grant/share?grant\\_id=692650&token=hycw1UitN07KHJ6PdIMx1rFhfG4CDsagA](https://www.grantforward.com/grant/share?grant_id=692650&token=hycw1UitN07KHJ6PdIMx1rFhfG4CDsagA)

The URL will be available for a **14-day** span.

Also, Lynn Nguyen included a message to you along with the shared opportunity:

Check it out!

Sincerely,  
GrantForward team.
