

Learn Strategic Information

GrantForward provides various databases where you can learn strategic information for your award-seeking cycle, such as identifying and tracking relevant sponsors, finding upcoming grants, seeking experts/collaborators, getting proposal ideas/sample awards, or exploring what your peer researchers are getting awarded.

Find more GrantForward support materials, including those referenced here, as well as Guides, Administrator Tools, Tutorials, Use Cases, and Webinars at GrantForward.com/support.

1. Identify and Track Relevant Sponsors

To quickly find the grants that match your research interests, you may think of identifying relevant sponsors and tracking the funding opportunities from them.

- To identify the relevant sponsors, go to the [Search Sponsors](#) page under the **Sponsors** tab.
 - You can search for sponsors by using keywords that a relevant sponsor should have in its name. E.g., we want to find sponsors that are interested in projects on cancer.

The screenshot shows the 'Search by Sponsor' interface. The search bar contains the keyword 'cancer'. Below the search bar is a grid of letters for filtering sponsors by their first letter. The results section shows 'Found 172 result(s)'. Two results are visible: 'Alex's Lemonade Stand Foundation for Childhood Cancer' (Type: Foundation, 11 Grants on GrantForward) and 'American Association for Cancer Research' (Type: Foundation, 31 Grants on GrantForward).

- You can search for specific types of sponsors that are relevant to your location by using both keywords and filters. E.g., we want to find state sponsors in Tennessee.

The screenshot shows the 'Search by Sponsor' interface with the keyword 'Tennessee'. The 'Sponsor Type' filter is set to 'State'. The results section shows 'Found 25 result(s)'. Three results are visible: 'Tennessee State Government' (Type: State, 102 Grants on GrantForward), 'Tennessee Department of Health' (Type: State, 8 Grants on GrantForward), and 'Tennessee Office of Rural Health' (Type: State).

- To track your relevant sponsors (e.g., Tennessee State Government), you can follow the steps below:
 - Conduct a grant search: Go to the [Search Grant Opportunities](#) page and enter the sponsor's name in the **Sponsors** filter. You can add as many sponsors as you want.

The screenshot shows the 'Search Grant Opportunities' page. The 'Sponsors' filter is active, showing 'Tennessee State Government' and 'Tennessee Department of Health'. The search results show 'Found 31 results in 0.75 seconds'. The results are sorted by 'Relevance'. There are buttons for 'Export', 'Save/Load', 'Url', and 'Administrator'. The results list includes filters for 'Sponsored by: Tennessee State Government; Tennessee Depart...' and 'With current status: Open'. There are also buttons for 'Previous' and 'Next'.

- Save the search: Just click on the **Save/Load** button at the top of the search result and select **Save a Search**. Name the saved search and set up the **Alert frequency** to receive daily, weekly, or monthly emails of new grant opportunities from these sponsors in your inbox.

The screenshot shows the 'Save your search' dialog box. It has two main sections: 'Update a previously saved search' and 'Save new search'. The 'Save new search' section is selected. The search name is 'Tennessee State Funding'. The 'Alert frequency' is set to 'Every Monday'. The 'In case of no new grants' section has 'Don't send email' selected. There are buttons for 'Save' and 'Close'. A link 'Click here to save the information of your search' is also visible.

2. Find Upcoming Grants

You can search for grants that are coming up soon so that you will have sufficient time to find collaborators and prepare for your proposal.

- Go to the [Search Pre-solicitations](#) page under the **Pre-solicitations** tab.
- Search by keywords/phrases and other filters to refine your search. E.g., search “mental health” to see grants on mental health topics that will be published in the future.

Pre-solicitation Search

Supporting the Mental Health Among the Health Professions Workforce
 Posted on July 07, 2023 on grants.gov - Active

Sponsor: Department of Health and Human Services
Announcement Number: HRSA-24-090
Estimated Grant Call Date: Dec 04, 2023

Estimated Application Due Date: Feb 05, 2024 Estimated Project Start Date: Jul 01, 2024 The purpose of the Promote **Mental Health** Among the Health Professional Workforce (PMHW) program is to support health care

3. Learn Funded Awards and Explore Potential Collaborators

By learning proposal ideas/sample awards and checking what your peer researchers are getting awarded, you can gain insights to make your proposals more competitive. You can also find potential experts/collaborators with the same research areas for a joint project in the future.

- Go to the [Search Awarded Projects](#) page under the **Awards** tab.
- Search by research topics to see what people proposed about certain research fields. E.g., search for ideas for your project on “big data”.
