¹ Full-time students only.² GPA based on high school academic courses only, as determined by the SMCM Admissions Office.³ GPA based on all high school courses.⁴ Percentile rank: the percentage of all (nation-wide) SAT scores that were at or below the average SAT score reported for entering first-year students at SMCM. For example, in 1996, 86% of all college-bound seniors scored at or below the SMCM average of 631 obtained on the verbal portion of the SAT.⁵ Re-centered SAT scores, as reported by The College Board, are presented beginning in 1996.Percentile Rank of SAT Scores

¹ Full-time when registering to live on campus. Hence, this number may differ from the official "freeze date" census data reported elsewhere in the *Factbook*.² Percentage of students at specified class level living in the specified housing type. For example, 91.2% (or 426 / 467 x 100) of all first-year students living on campus lived in a residence hall in fall 2002.³ Includes exchange students.⁴ Employees and others granted special permission to live on campus.

¹ Percentages by racial classification are based on "Race Known" of on-campus full-time students.

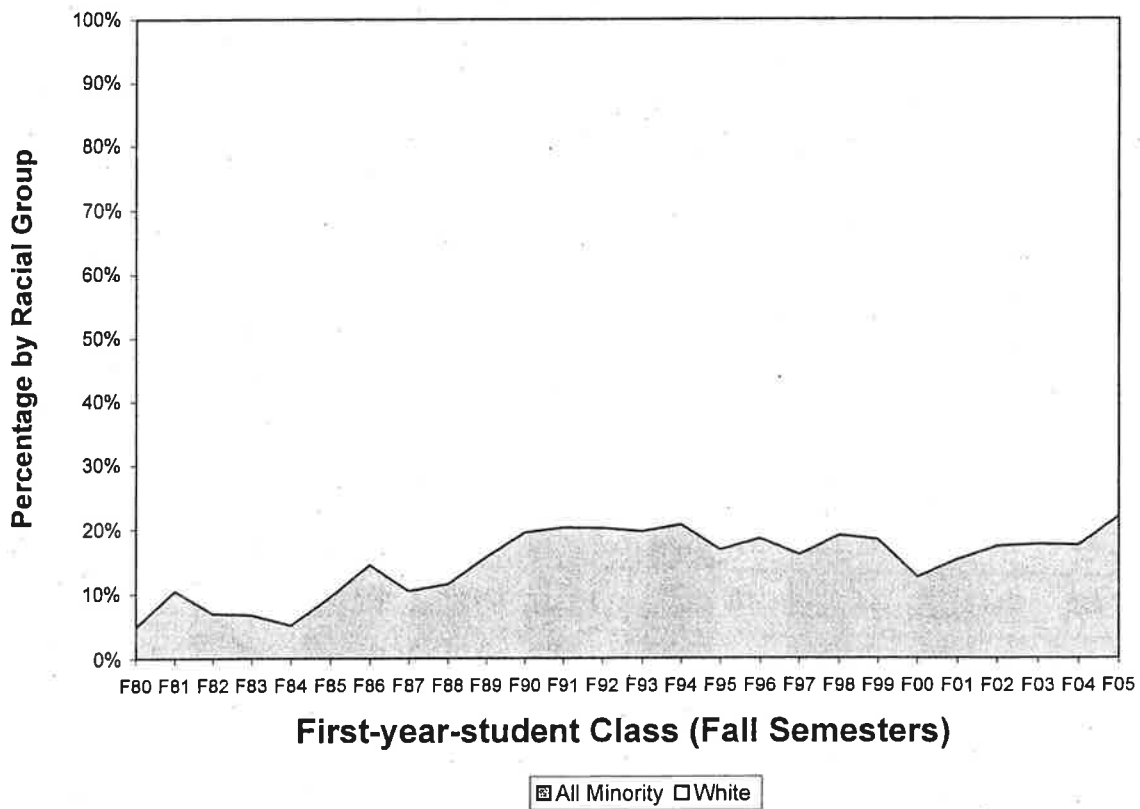

² Some government reports exclude non-resident aliens (those students with, typically, an F1 visa) from racial counts. The above figures portray the racial diversity of all full-time students, regardless of visa type. The numbers of non-resident aliens included within each racial category by year are indicated in the "Af+As+H+W" column. This column header refers to the numbers of non-resident aliens included within the Afr-Am, Asian, Hispanic, and White counts, respectively. For example, the "(1+3+1+7=12)" entry in the "Af+As+H+W" column for Fall '01 indicates that 1 of the 115 Afr-Am students in Fall '01 was a non-resident alien, 3 of the 59 Asian students were non-resident aliens, etc.

¹Consistent with the reporting practices of the National Center for Education Statistics of the US Department of Education and other reporting agencies, the following students are excluded from retention analyses: those who die or become permanently disabled, those who leave school to serve in the armed forces (or have been called up to active duty), those leaving school to serve with a foreign aid service of the federal government, and those who leave school to serve on an official church mission. The numbers of such students are indicated within parentheses.

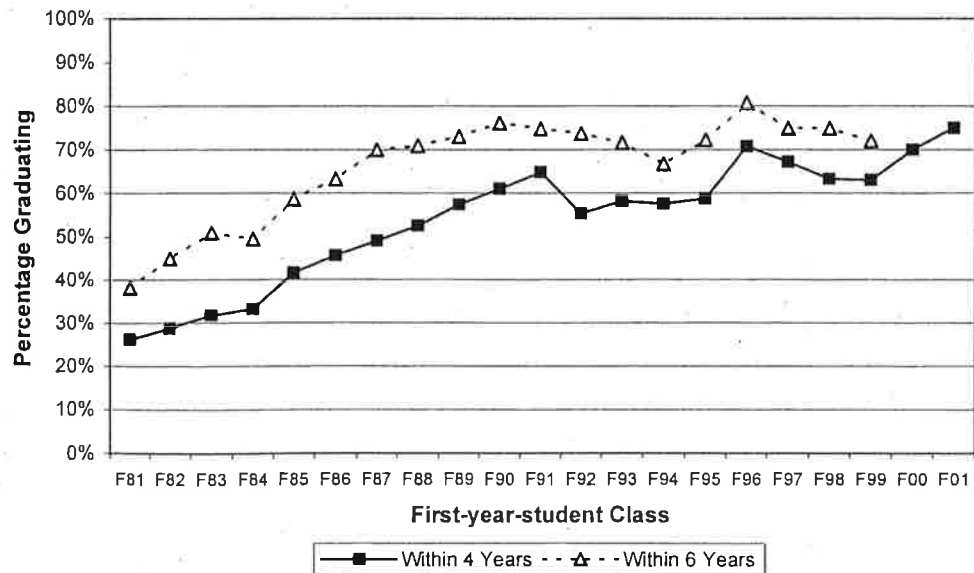

²The top percentage is the percentage of first-year students who re-enrolled for the indicated year. For example, as indicated in the "Re-enrolled 3rd Year" column of the "Fall '96" line, 83.3% of the fall '96 first-year student class re-enrolled for a third year (i.e., 260 of the 312 fall '96 first-year students re-enrolled for a third year). The bottom percentage shows year-to-year retention. For example, as indicated in the "Re-enrolled 3rd Year" column on the "Fall '96" line, 92.9% of the first-year student class that enrolled for a second year re-enrolled for a third year (i.e., 260 of the 280 enrolled for a second year re-enrolled for a third year).

³The top percentage is the percentage of first-year students who graduated in the indicated years. For example, as indicated in the "Graduated 5 Years" column of the "Fall '96" line, 9.9% of the fall '96 first-year students graduated in 5 years (i.e., 31 of the 312 fall '96 first-year students took 5 years to graduate). The bottom percentage is the percentage of first-year students who graduated in or before the indicated year. For example, as indicated in the "Graduated 5 Years" column of the "Fall '96" line, 80.8% of the fall '96 first-year student class graduated in 5 years or less; i.e., 252 (3 3-year grads + 218 4-year grads + 31 5-year grads) of the 312 fall '96 first-year students graduated in 5 years or less.

¹ Students excluded from retention and graduation analyses. See footnote 1 on page 16.

² The top percentage is the percentage of first-year students who re-enrolled for the indicated year. For example, as indicated in the "Re-enrolled 3rd Year" column of the "Fall '99" line, 76.1% of the fall '99 first-year students re-enrolled for a third year (i.e., 210 of the 276 fall '99 first-year students re-enrolled for a third year). The bottom percentage is year-to-year retention. For example, as indicated in the "Re-enrolled 3rd Year" column of the "Fall '99" line, 92.9% of the first-year student class that enrolled for a second year re-enrolled for a third year (i.e., 210 of the 226 enrolled for a second year re-enrolled for a third year).

³ The top percentage is the percentage of first-year students who graduated in the indicated year. For example, as indicated in the "Graduated 5 Years" column of the "Fall '99" line, 8.0% of the fall '99 first-year students graduated in 5 years (i.e., 22 of the 276 fall '99 first-year students took 5 years to graduate). The bottom percentage is the percentage of first-year students who graduated in or before the indicated year. For example, as indicated in the "Graduated 5 Years" column of the "Fall '99" line, 71.4% of the fall '99 first-year student class graduated in 5 years or less; i.e., 197 (3 3-year grads + 172 4-year grads + 22 5-year grads) of the 276 fall '99 first-year students graduated in 5 years or less.

*Definitions for "Classes" and "Subsections" conform with the Common Data Set. "Classes" refers to credit-bearing courses identified with a discipline and number that meet in a classroom or similar setting and are not laboratory or discussion sections. Individual instruction offerings (e.g., Independent Study, St. Mary's Project, etc.) are excluded from the "Classes" tabulation, and cross-listed courses are included only once (enrollments of cross-listed sections are combined). "Subsections" (e.g., lab sections, calculus exam, discussion sections) are associated with but meet separately from the lecture portion of credit-bearing courses. Enr = 1, a category not included in the Common Data Set, includes individual instruction such as Independent Study, St. Mary's Project, private music instruction, etc.

¹Calculations based on full-time faculty holding a state-authorized line. This includes temporary full-time faculty who hold a state line and are, typically, designated "Visitor." To avoid double counting of faculty lines, the following counting rules are observed: 1) count regular faculty on sabbatical but not sabbatical replacement faculty, and 2) count leave-of-absence or leave replacement faculty but not regular faculty on leave-of-absence or leave. Appendix C provides a list of all faculty and their teaching status.

²"N" and "%" apply only to "Rank," "Highest Degree," and "Sex" categories.

³Terminal degrees include all doctorates, the MM, and the MFA.

⁴a) Extra pay for administrative duties (e.g., division and department heads) is not included in salary calculations. b) Full regular salaries are used for faculty on full-year sabbaticals. c) "Special case" salaries (viz., salaries of those on leave-of-absence or leave, sabbatical replacements, and the Distinguished Professor) have been excluded from all salary calculations. d) Average salaries reported only for cells containing four or more faculty.

³ Decreases in average salary may arise from several sources: the hiring of "visiting" faculty within an academic rank, promotion of some of the more highly paid faculty to the next academic rank, and the attrition of highly paid faculty.
