OVERVIEW OF INTERNSHIP FOR MENTAL HEALTH CLINICIANS & SOCIAL WORKERS

Time mental health and substance abuse internship provide mental health clinicians and social workers in-depth training experience. We offer intensive weekly individual and group supervision and discussions and didactic seminars.

We offer three rotations that last four months each where our interns become part of our interdisciplinary team. Our outpatient mental health and substance abuse clinic serves children, adolescents, adults & geriatric populations for a broad range of mental health and substance abuse issues.

All our interns, staff, and patients come from diverse backgrounds and vary significantly in terms of their individual, cultural and religious identities and their presenting problems. Therefore we emphasize cultural fluency and cross-cultural diversity in our internship programs, so that cultural diversity is an integral part of our training program.

At Time Organization, we have an interdisciplinary team which we believe is our strength and backbone. We have psychiatrists, psychologists, social workers, pharmacists, clinical nurses, and other professionals who actively coordinate and treat patients at its foundation. Nurse practitioners, interns, and other clinical practicum students also form a part of our valued treatment team.
